THAW
Keeping Michigan families warm since 1985.
Mission Statement

THAW is a leading provider of utility assistance for Michigan residents in need.

We collaborate with our partners to deliver services that support long term, affordable energy solutions.
THAW FY12 highlights...

In October THAW elected three new Board members:

1. Jerry Carlson, Microsoft
2. Carl English, AEP (retired)
3. Kirk Mayes, Brightmoor Alliance (*pictured above*)

After several months of uncertainty, THAW was awarded a $9.8 million state grant in December from the Michigan Public Service Commission (MPSC). This is the largest award THAW has ever received from the State.

THAW transitioned from the Low Income Energy Efficiency Fund (LIEEF) to the Vulnerable Household Warmth Fund (VHWF). New program specifications required THAW to train 70+ sites on the new eligibility requirements.

“Today THAW provides important energy assistance when a family is in crisis. In the future we will focus on early intervention — getting to people with assistance to avoid the crisis and keep the home and family stable.”

— Bertram Marks, Executive Committee, THAW
The landscape is changing…

The landscape of energy assistance in the state of Michigan and nationally is changing. This past year has been one of opportunity and adaptation. The elimination of LIEEF funding opened the door for transformation. Agencies, utilities and state legislators have begun the critical task of assessing a system in need of reform. THAW’s mission is energized by innovating long term solutions that lead to energy self-sufficiency and support this reform.

Over the next three years you will be seeing more on how THAW plans to enhance the system and empower our customers. This transformation will be an alignment of public, non-profit and private partnerships that supports a new approach to keeping Michigan’s families warm.

Linda Blair
President,
THAW Board of Directors

Through collaboration with DTE Energy and SEMCO, THAW assisted more than 5,000 customers through mobile processing. It extended THAW’s reach and allowed our team to efficiently meet customers where they are — in neighborhood churches and community centers around the state.

Raised over $500,000 in corporate support as part of THAW and DTE Energy’s “Week of Warmth” community outreach partnership. During this week we distributed nearly $1,000,000 in energy assistance.

Kicked-off Michigan Solutions, a public private partnership with Consumers Energy, Clear Results and the Department of Human Services. This behavioral research study provided key information on the behavior and attitudes of the low-income customer toward energy consumption and payment.
Financials

Message from the Treasurer

The twelve months ending on June 30, 2012 was a record year for The Heat and Warmth Fund. THAW attracted the highest level of government funding in its 27-year history. The $9.8 million Vulnerable Household Warmth Fund (VHWF) was awarded by the Michigan Public Service Commission.

The Finance Committee provides fiscal governance to ensure compliance and adequacy of controls. In addition, an independent auditor performs quarterly reviews of the financial statements as well as a complete annual audit. We believe THAW has talented and skilled staff performing the internal accounting required to support the fulfillment of THAW’s mission in an efficient and effective manner.

Terry Oprea
Treasurer, THAW Board of Directors

“Our interest in innovating is reform. The system, in which energy assistance is provided, is laden with opportunities to be more effective and efficient. It is our mission to find them or invent them.”

— Susan Sherer, CEO, THAW
Energy Self Sufficiency for Everyone

THAW’s highest goal is that every customer is able to pay for the energy they use. Instead of providing one solution for all customers, we are innovating new interventions that we believe will provide customized solutions leading to energy self-sufficiency.

Robust working relationships with the Department of Human Services, utility partners, foundations and business community will be key to our efforts. This year we will launch “Michigan Solutions” — a set of innovative strategies that will impact Michigan citizens in need by encouraging accountability and empowerment while reducing utility shut-offs and public assistance.

While innovating new solutions, THAW has remained a leader in providing emergency utility assistance for those facing immediate shut-off in the cold Michigan winters. Over the past two years, we have assisted nearly 20,000 Michigan residents in need. In partnership with the utility companies THAW took our processing “on the road” processing thousands of customers across Michigan at churches, schools and community centers — meeting people where they live to help an urgent need.

Keep watching THAW as we move from being a leader in energy assistance to a leader in energy security for low income residents in Michigan.
